TYPE E

France - Belgique - Pologne - Slovaquie Rép. Tchèque
Tunisie & Maroc

Illustration of Type E electrical components: a round plug with two pins, a square wall socket with three circular holes, a black plug with three pins, and a square wall socket with three circular holes.

26

TYPE G

UNITED KINGDOM

Illustration of Type G electrical components: a round plug with three pins, a square wall socket with three rectangular holes, a white plug with three pins, and a square wall socket with three rectangular holes.

27

TYPE J

SUISSE

Illustration of Type J electrical components: a round plug with three pins, a square wall socket with three circular holes, a black plug with three pins, and a square wall socket with three circular holes.

28

TYPE B

USA – Canada – Japan

Illustration of Type B electrical components: a round plug with two pins and a ground pin, a square wall socket with two rectangular holes and a ground hole, a black plug with two pins and a ground pin, and a square wall socket with two rectangular holes and a ground hole.
